PREFACE TO VOL. I

I HAVE again to appeal to the lovers of art literature for support for my new venture, which I undertook a few years ago in the hope of correcting the many errors and omissions in Mr. Redford's book. He only gives the year of the different sales, omitting the full date and the lot number. These I have endeavoured to supply. One of the principal omissions is that all the Turner drawings sold from 1806 to 1856 are not recorded in his book, probably in consequence of the slips being lost.

I do not pretend that this work is complete even as regards pictures that have fetched over £100, as it was absolutely impossible to unearth the sale catalogues of every auctioneer in the kingdom during nearly two hundred years, but I hope that the result of my labours as far as it goes will prove of use in tracing the history of many famous pictures. My difficulties increased the farther I went back, as in that magnificent collection of sale catalogues in the Victoria and Albert Museum so many of them have no prices, and the importance of any individual picture can only be guessed at from the title. I have supplied them to the best of my ability.

When the compilation of this work was approaching completion the war began, and the cost of printing increased. I therefore decided to hold it over for two years in the hope of improvement, but the labour costs of printing and binding have more than doubled, whilst paper and binding have increased considerably more in proportion; so, if the work was ever to see the light of day, at all events while I remained here to correct the proofs, the printing must be faced at once, and I was only able to get an estimate for the first volume. No printer would take the risk beyond that; and now a further rise has taken place, so the second volume will have to carry this extra percentage. Volume three will have to look after itself. The manuscript is complete to the end of the work. I feel compelled to compliment the staff of the Chiswick Press on the accurate way they have set up a most complicated manuscript.

The frontispiece to this volume is a reproduction of a portrait of myself painted in 1878, at about the time I began to publish my long series of art books. It was painted by Miss Rosa Corder, a pupil and great friend of James McNeil Whistler, who painted a full-length portrait of her, well known to lovers of Whistler's works.

ALGERNON GRAVES.
